DaVita helps raise money to improve access to dialysis care

October 13, 2017

Earlier this month, more than 700 cyclists participated in the 11th Annual Tour DaVita from Sky River Park in Monroe.

Organizers anticipated more than \$1.2 million will be raised for Bridge of Life, a nonprofit funded by DaVita that works to improve access to dialysis and primary care in under-served communities around the world.

DaVita is a national kidney care and dialysis service company.
